FINCANTIERI YACHTS TECHNOLOGY OF BEAUTY

Fincantieri Yachts are products of outstanding quality. They are the final result of a special synergy of advanced technical, design and construction capabilities, perfected over more than two centuries of experience building all types of oceangoing vessels. We infuse into every yacht the passion for quality and a keen eye for detail, stemming from the experience of generations of skilled engineers, craftsmen and leaders that are the Fincantieri team. They operate together in sophisticated yards like Muggiano supported by the world's finest yachting subcontractors. Vessels are designed and constructed with precision under the watchful eye of skilled project managers, combining the best design and production techniques with managerial expertise, at the disposal of discerning owners who seek excellence, in an open and proactive interaction that is pleasant, flawless and rewarding.

YACHTING YOUR WAY

I am convinced that who has a strong personality also at sea wants to follow his instinct and live it his own way. Private Bay is a different vision of a mega yacht conceived to live close to the sea, the main protagonist, while enjoying an authentic experience.

The exterior design is characterized by surfaces that intersect creating light reflections with terraces and balconies overlooking the sea. The flair of the bow adds class and the leaning mast gives a sporty accent for a yacht that with a contemporary elegance shows her identity.

Fincantieri Yachts expertise brings prestige and quality to this fresh concept of a 123m Yacht setting the basis for a stimulating collaboration.
