TECHNOLOGY OF BEAUTY

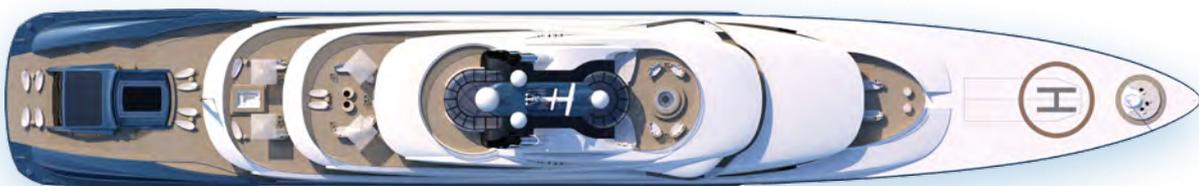

VANITAS - 123m TECH&BEAUTY YACHT - designed by ANDREA VALLICELLI specially for FINCANTIERI YACHTS

FINCANTIERI YACHTS TECHNOLOGY OF BEAUTY

Fincantieri yachts are products of outstanding quality. They are the final result of a special synergy of advanced technical, design and construction capabilities, perfected over more than two centuries of experience building all types of oceangoing vessels. We infuse into every yacht the passion for quality and a keen eye for detail, stemming from the experience of generations of skilled engineers, craftsmen and leaders that are the Fincantieri team. They operate together in sophisticated yards like Muggiano supported by the world's finest yachting subcontractors. Vessels are designed and constructed with precision under the watchful eye of skilled project managers, combining the best design and production techniques with managerial expertise, at the disposal of discerning owners who seek excellence, in an open and proactive interaction that is pleasant, flawless and rewarding.

VANITAS IS NOT VANITY BUT AN EXPRESSION OF SUBLIME BEAUTY

VANITAS continues the partnership between Fincantieri Yachts and Andrea Vallicelli Design.

She embodies the primacy of style in all its guises, from sophisticated architectural solutions to refined decorative elements. Her design has been created for great aesthetic appeal, where the superstructure's soft geometries blend into the hull's slender elegant forms at each end.

Special features abound in the layout too, complementing the perfect fusion of technology and lifestyle luxury. All in the name of absolute beauty, which the name VANITAS vaunts to the full.

Andrea Vallicelli

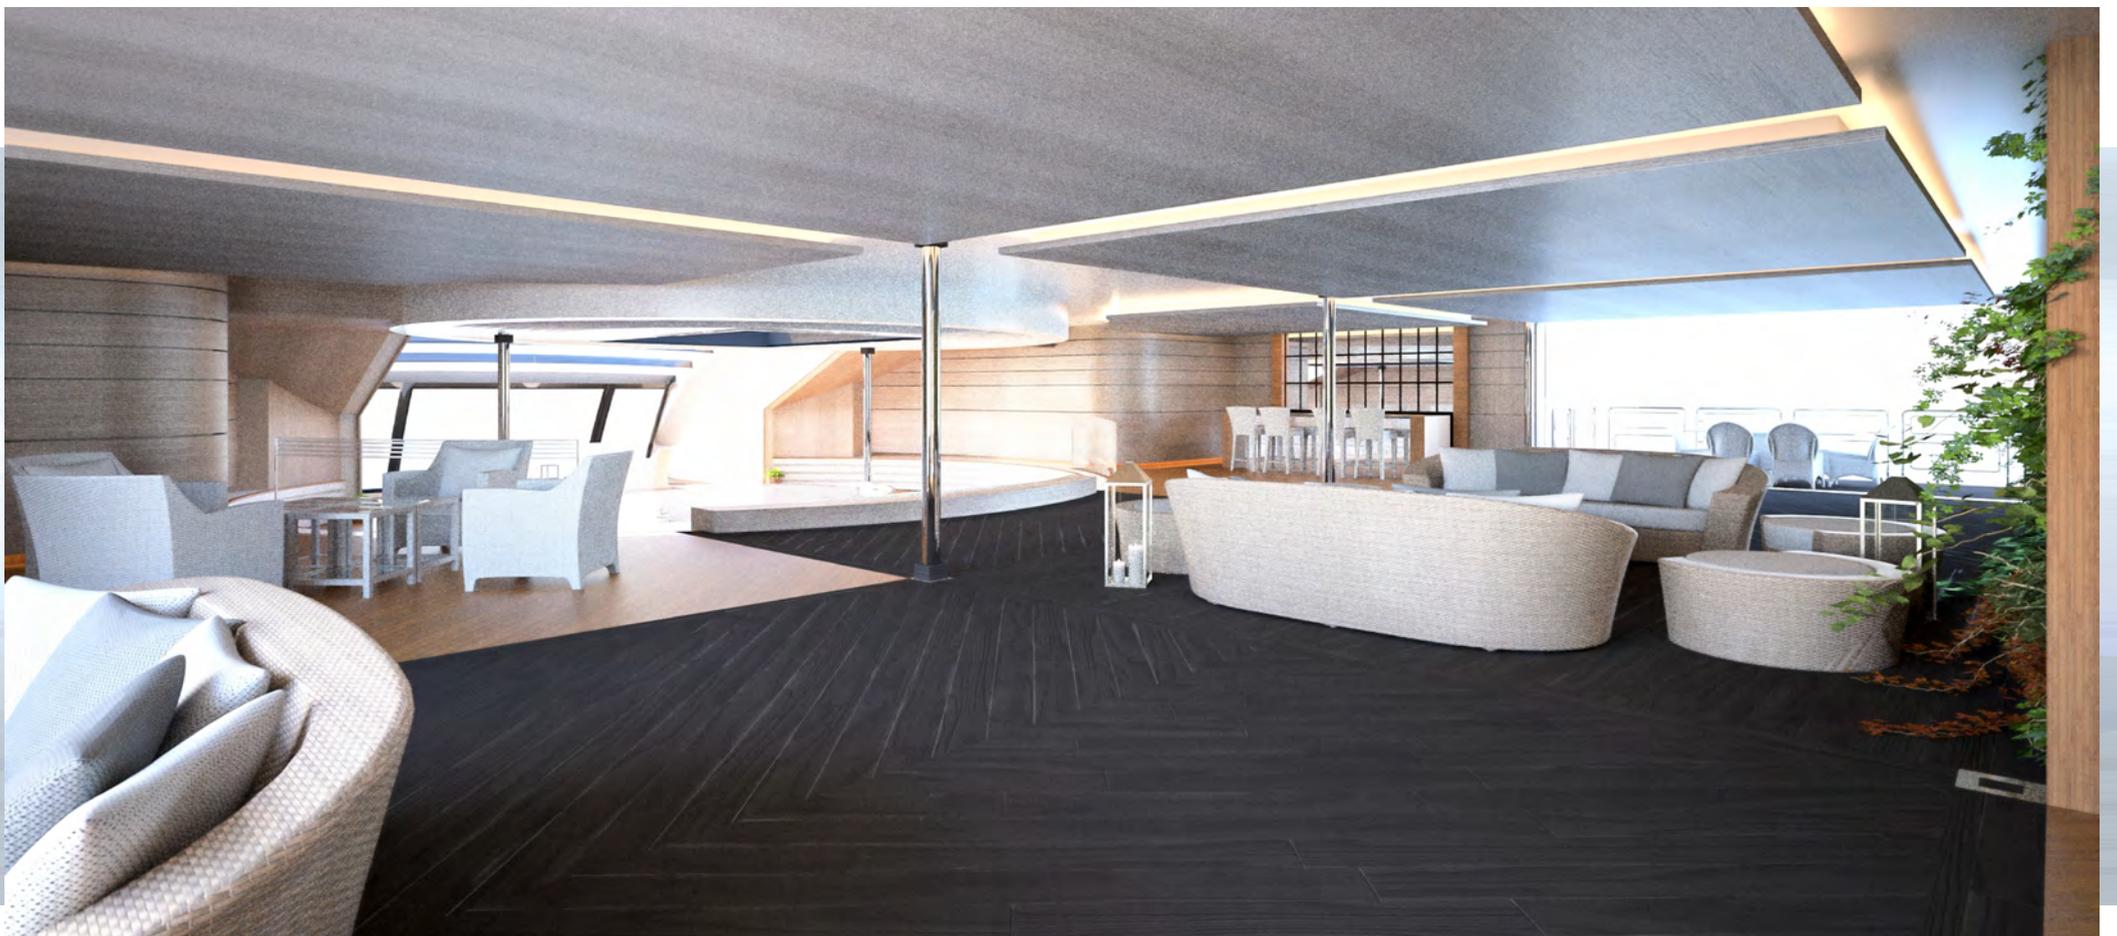

VANITAS
