ARMONIA - 142m LUXURY MOTOR YACHT - designed by A.VALLICELLI&C. specially for FINCANTIERI YACHTS

FINCANTIERI YACHTS TECHNOLOGY OF BEAUTY

Fincantieri yachts are products of outstanding quality. It's the final result of a special synergy of advanced technical, design and construction capabilities, perfected over more than two centuries of experience building all types of oceangoing vessels. We infuse into every yacht the passion for quality and a keen eye for detail, stemming from the experience of generations of skilled engineers, craftsmen and leaders that are the Fincantieri team. They operate together in sophisticated yards like Muggiano supported by the world's finest yachting subcontractors. Vessels are designed and constructed with precision under the watchful eye of skilled project managers, combining the best design and production techniques with managerial expertise at the disposal of discerning owners who seek excellence, in an open and proactive interaction that is pleasant, flawless and rewarding.

A PERFECT COMBINATION OF DREAMS AND REALITY

ARMONIA was conceived in close co-operation with Fincantieri Yachts Division, and its design combines technical performance, safety and comfort with new, beautiful aesthetic solutions that ensure a fine balance of all the architectural elements.

The superstructure's main outline is designed out of very soft shapes, while the low angle of the transom's slope is reminiscent of that of a sport sailing yacht. All of this, together with the very long forward overhang, help to keep a very slender overall look.

Hence the choice of the project's name, which comes from ancient Greek language and means exactly "the perfect fit and the morphologic equilibrium of the main components of a creation": this is ARMONIA.
